Company Profile

Founded in 2017, RealUnit Schweiz AG is a **listed investment company** that invests in a broadly diversified range of returns-oriented and tangible **real assets**.

The central investment principles are **capital protection and the long-term preservation of the real purchasing power** of its shareholders. Swiss investments and the direct ownership of tangible assets form a focal point of the investment activity. Its legal structure as an investment company and the composition of the asset classes, which has been optimized over the past decades, make it possible to react flexibly in the event of a crisis and thus ensure the best possible preservation of the value of the entrusted assets.

A stake in the company can be acquired through traditional shares, held in a bank custody account, or as a share token on the Ethereum Blockchain. The shares of RealUnit Schweiz AG are accessible to savers and retail investors, entrepreneurs, professional investors and crypto investors, even with small amounts.
